Email: Patricksiqueira.developer@gmail.com • Phone: (+55) 71 98286-2912

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer
Agile Projects – (Mar/2025 – Present) – Remote

Development of scalable full stack systems using React, Node.js, and relational/NoSQL databases, serving multiple clients simultaneously with applications supporting thousands of active users. Creation of REST APIs, administrative dashboards, and high-performance landing pages, ensuring security, maintainability, and 24/7 availability.

Full Stack Developer (.NET & DNN)
Senac Bahia – (Jan/2025 – Mar/2025) – Remote

Work with .NET Framework, DNN CMS (DotNetNuke) integration, 2sxc module, and Blazor development. Implementation of critical features and bug resolution in internal systems, reducing downtime and ensuring operational stability for over 5,000 users.

Senior Full Stack Developer
Sistec Tecnologias – (Jan/2024 – Mar/2025) – Remote

Development and maintenance of administrative and corporate systems using Java, Spring Boot, and React, serving enterprise clients. Collaborative work with SCRUM methodology, Git version control, and continuous feature delivery, contributing to product evolution and achieving 30% reduction in report processing time.

Automation Manager & Senior Full Stack Developer
Nobres Empreendedores – (Jan/2021 – Dec/2023) – Remote

Technical leadership in web solutions focused on digital marketing, generative AI, interactive quizzes, blockchain, and web3. Management of API integrations, campaign optimization, and commercial automation, resulting in 45% increase in conversion rates and 80% automation of manual processes.

EDUCATION

Technical Course in Systems Analysis and Development
SENAI CIMATEC – Jan/2020 – Completed Dec/2025

Bachelor's Degree in Computer Science
Uniruy – Aug/2025 – Expected completion Dec/2029

SKILLS & TECHNOLOGIES

Core Stack: Java, Spring Boot, Node.js, React.js, TypeScript, Next.js, Express

Frontend: React.js, Next.js, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind, SCSS, GSAP, Anime.js, Styled Components, Blazor

Backend: Node.js, Express, Java, Spring Boot, C#, .NET, PHP

Databases: PostgreSQL, MySQL, MongoDB, MariaDB, Redis

Cloud & DevOps: AWS, Azure, Docker, CI/CD, GitHub Actions

Other: RESTful APIs, WebSocket, WebRTC, WordPress, DNN (DotNetNuke), 2sxc

FEATURED PROJECTS

Blockchain-Based Betting Platform
Betting platform with auditable random number generation via blockchain, ensuring transparency and reliability. Integration with blockchain API for dynamic seeds received directly from the public network, eliminating manipulation and increasing system credibility by 60%, processing thousands of daily transactions.

SMS Panel with Credit Control and Payment
Complete administrative dashboard for SMS management with permission system, message sending and receiving, real-time balance control, and payment gateway integration (Stripe/MercadoPago). Processing over 50,000 monthly messages with 99.8% delivery rate.

Cinematic Landing Pages
Development of modern landing pages with GSAP animations and visual storytelling. Responsive design focused on performance, SEO, and conversion, delivering immersive experiences with average 35% increase in conversion rates and 40% reduction in bounce rate.

PROFESSIONAL DIFFERENTIALS

Professional with flexible structure to accommodate different hiring models (full-time employment or contract work). I operate as a registered business entity (Patrick.Developer), offering security, formality, and agility according to project needs. Invoice issuance and service contracts available.
